

SEWER RATE – FEE SCHEDULE

The Selectboard of the Town of Stowe, acting in their capacity as the Sewer Commission pursuant to the provisions of 24VSA §3506 and §3507, Section 203(8) of the Stowe Town Charter, and Chapter 8, Division 5 of the Stowe Municipal Code, does hereby adopt the following sewer rates to be effective as of the 1st day of July, 2007. This sewer rate fee schedule shall supercede and replace all previously adopted sewer rate fee schedules.

SEWER CONNECTION FEE

\$21.00 per gallon of design flow (80% of flow rating). Sewer connection fees may be financed in accordance with the current Deferred Payment Agreement adopted by the Selectboard. Connection approvals are valid for one (1) year from date of approval.

Sewer connection fees for existing structures may be financed over a period of seventeen (17) years with a zero (0%) percent down payment until June 30, 2008. Connections from new structures will require a down payment of ten (10%) percent of the total connection fee with the above term limits. If the connection fee is financed, the property owner is required to enter into a Deferred Payment Agreement and Sewer Connection Lien with the Town of Stowe that requires quarterly payments of the connection fee including a 1% handling fee on the payment due.

Sewer connection fee financing cannot extend beyond the end of 2024. Therefore, the duration of deferred payment agreements will be reduced by one year, every year: For example, connection agreements made in 2007 will have a 17 year duration, 2008 a 16 year duration, etc.

SEWER ACCESS FEE
