AGENDA ITEM NO. 5
Sewer Abatement Request
Stoweflake Resort & Spa

Summary: The Stoweflake Resort suffered a significant water main leak and repair and they have submitted an abatement request for sewer usage charges for water use metered but not discharged to the Municipal Sewer associated with this leak. Staff has confirmed the leak occurred and reviewed the associated volumes. The subject meter was billed 134,424 CF more in July 2019 than July 2018. This substantially reflects the estimated water loss not discharged to sewer recommended for sewer abatement.

Town Plan Impact: N/A

Fiscal Impact:

The sewer usage fee for 134,424 CF of sewage usage @ \$0.0792/CF = \$10,646.38

Recommendation: Move to abate 134,424 CF of sewage usage and credit \$10,646.38 of invoiced sewer usage fee to the subject account.
