

Agenda Summary
August 26, 2019

Agenda Item No. 6-1B

-Sewer Department Utility Truck

Summary: On July 30, 2019 the Town received bids for a sewer department utility body pickup truck. The bid documents include the dealership taking our 1999 Ford truck in trade, “as is.” Only one bid was received from St. J. Auto in the amount of \$43,352. This includes all cost for a fully equipped GMC Sierra 2500HD truck with a utility box body and heavy-duty snowplow assembly.

Town Plan Impact: N/A

Fiscal Impact: FY20 Sewer Capital included \$35K for a new truck. The additional cost is primarily associated with the utility body and heavy-duty plow assembly fit out.

Recommendation: Move to approve the award of the Sewer Department Utility Truck to St. J GMC for \$43,352
